HELLO ARIES

MARCH 21—APRIL 19

GET READY TO GIVE IT ALL YOU GOT ARIES!

The wild ride that was life for you in 2011 continues! Uranus—the planet that rules inspiration, creativity and rapid change—catapults you into the fast lane! Everywhere you go this year you will need to prove yourself again and again. You won't mind because your sign loves a challenge!

The pressure is on to be the smartest, the fastest and most successful. It's your turn to be the leader and the role model. Life will feel like a military drill, but you are destined to be one of the richest and most popular of Zodiac signs this year.

The pressure peaks on March 11th when you get that once in a life-time chance to push a special project or idea forward.

In mid-June, Venus brings a powerful woman into your life that can “make or break you.” And you'd better treat this lady like gold. She is likely to play a large part in how successful you can be for the next two years.

You finally get a breather by October 15th. Jupiter in Scorpio forces you to slow down and enjoy the finer things in life. Try to spend the last three months of the year with friends and family that you might have neglected during your rise to success.

Use these last three months 2012 to start a fitness plan and attend to your physical and psychological health. You will need all of your strength to cope with work stress in 2013.

Buckle up Aries 2012 is an adventure ride!

HELLO TAURUS

APRIL 20—MAY 20

IT'S TIME TO PLAY TO WIN TAURUS!

You are the luckiest you've been in years Taurus! Thanks to the fact that Jupiter, planet of luck, is beaming in your sign right up until June 11th 2012! Use this time to "make hay while the sun is shining!"

Bulls buckle down. January, February, March, April and May are the months that you should absolutely take care of financial matters. Do things like renegotiate interest rates on loans or apply for loans or take out a mortgage. Redo your mutual funds so that they are recession proof!

While Jupiter is in your sign you'll be showered in money from all kinds of unexpected sources! You could get a bonus, an unexpected royalty check or even an inheritance. So keep your eye on the mail box, Taurus. Luck has a way of finding YOU in 2012. Always look your best as Jupiter may bestow a career promotion as well.

Expect a wonderful thing to happen in your love life when Venus, your ruling planet, crosses the Sun on June 6th. Your prayers are answered when it comes to love! Many Bulls may decide to get married at this time. However, one of Jupiter's influences is weight gain. Keep up a diet and fitness plan or your waistline will expand!

In the last of half of the year you'll sort out any money or love tangles from the past and set yourself free from all kinds of guilt and debt. By December, you will be breathing easier.

Taurus, be grateful for all of the positive changes that 2012 will bring you!

HELLO GEMINI

MAY 21—JUNE 20

WELCOME TO EASY STREET GEMINI!

2011 is going to be a very fortunate year for Gemini's. 2011 is going to revitalize your career and money situation! Jupiter—the planet of wealth blows the doors open for your sign on June 11th. The prosperity planet reanimates all aspects of life and is going to stay in your sign for more than full two years blessing you over and over again!

You could be offered a new job or receive an inheritance. In fact, money may simply appear in your life as if it was falling from the sky. You'll be counting your blessings AND dollars rather than trying to make ends meet every day.

Your mission for January and February is to visualize exactly how you want to live your life for the next fourteen years. Gemini, on March 11th the planet Uranus is going to help you shape a new, exciting life MINUS the petty dramas that have plagued you the last few years!

Geminis also have something else very special in store for them in June. On June 5th the planet Venus, the planet of love, is going to travel across the sun. This is a very rare event in your sign. It promises to fulfill your deepest, dearest wish. This is the lucky break that you have been waiting for Gemini. Make the most of it as it almost never happens. The last time Venus crossed the Sun was in 1882 and this time both planets are in your sign! You are going to be famous!

Gemini the stars are shining brightly for you in 2012!

Good luck Gemini, it's a great year for you!

HELLO CANCER

JUNE 21—JULY 22

HELLO CANCER! TIME TO FOLLOW YOUR HEART!

The first three months of 2012 have you feeling happy, peaceful and secure. You know what you want in life and it is yours! Jupiter in Taurus has many Crabs nesting and renovating or buying a home. This is the perfect time for you to celebrate, entertain and show off your cooking skills.

However as perfect as things seem on the outside you might be feeling the winds of change blowing in your direction. On February 4th, the planet Neptune brings you a bit of a shock. Whatever this news is Cancer, it convinces you that it is time to trade in your false sense of security to pursue something or someone that you truly love. Some of you decide to separate and move on!

The changes that are coming for Cancers in 2012 might feel a bit uncomfortable. But the rewards for following your passion rather than your reason will be sky-high. Do not be afraid to follow your hunches. Neptune makes sure your intuition is dead-on about everything and everyone in your life. It is okay not to settle for less. You are worth it!

Crabs, follow through on your commitment to make needed changes in the summer of 2012. After October 5, Saturn the task-master moves into Scorpio, and limits your options. It will also be more difficult for you to travel after October 5th .

Saturn in Scorpio brings a lot of family drama to the holidays so make sure that you are psychologically prepared to meet the storm! However several planets in Pisces will give you the emotional sophistication you need to handle these problems.

Cancer, you WILL come through these trying times with flying colors in 2012.

HELLO LEO

JULY 23—AUGUST 22

GREETINGS LEO! THIS IS YOUR LUCKIEST YEAR YET!

The year 2012 finds you content. You have a definite idea of what you want to manifest in the future and the universe is going to grant your wishes.

Jupiter in Taurus for the first six months of 2012 helps you buy property, renegotiate mortgages and solve other very practical financial matters. This is a good time for Lions to renovate your home or buy new furniture. Home Sweet Home never seemed better!

When money planet Jupiter enters Gemini on June 11th many of you get great news about your career. A promotion is in store for most Lions. Some of you get married!

The only drawback of this influence, which lasts for two years, is you might become an impulse shopper. Avoid buying fashions that quickly go out of style or technology that looks good, but doesn't function so well.

Leo, one of the most romantic periods of the year is going to be from July 29th until August 21st. Venus in your sign brings single lions a life-mate! Play the lottery August 8th, when Mercury, the Sun and Venus are in your sign!

Most of your money worries will be a thing of the past by the end of 2012. But watch out for the tax man or a debt collector when Saturn enters Scorpio on October 5th, 2012. The silver lining behind this cloudy influence forces you to budget. Invest your money rather than spend it on impulsive purchases.

Lucky Leo! Enjoy your riches in 2012.

DEAR VIRGO...

ARE YOU READY TO GET DOWN TO BUSINESS?

Virgos have had a hard time for the past two years. Saturn and Pluto handed you a painful emotional situation to deal with on a daily basis. The drama has ended but not the pain! Pluto is a slow moving planet that prolongs self-pity. It's time to get busy and stop feeling sorry for you!

Many Virgos feel used, abused and can hardly go on. Fortunately, thanks to Jupiter in their fellow earth sign of Taurus, many Virgos are richer than ever. In fact, most Virgins will be making more money than they ever have in their life this year! That is more than most Zodiac signs can claim!

On February 8th, healer planet Chiron moves into the gentle sign of Pisces. This makes it easier for Virgos to connect to other people. Seek out the support of old friends or adopt a new pet to keep your company.

For the first six months of the year many Virgos renovate or sell a property. When Jupiter moves into the impulsive sign of Gemini after June 11th curb a tendency to buy things that are too trendy to stand the test of time.

After October 5th Saturn leaves the diplomatic sign of Libra and visits the ruthless sign of Scorpio. If you want to forgive a family or BFF or end a rift do it before that date or that bridge could be burned forever.

Virgos deal with legal matters and government in the last two months of the 2013 but this will lead to even more riches in 2013.

Virgos there's lots of drama ahead in 2012 but lots of money too! Spend it wisely.

HELLO LIBRA

SEPTEMBER 23—OCTOBER 22

THIS IS YOUR YEAR TO WHISTLE WHILE YOU WORK LIBRA!

2012 is going to be a year of “no pain, no gain” for you because Saturn, the planet of personal discipline, makes you its slave. During the first six months Librans must work very hard to get ahead or even just keep your job. This is because Saturn forces us to face and deal with the harsh realities of life.

From January to June your legal and financial life gets a shake-down. Dealings with government, insurance companies and banks are the focus of 2012. The planet Pluto, which is about deep transformational change, may force you to scale down. Libra, this is a good thing. You'll get rid of those things in your life that are burdens and keep you slave to the system!

More good news! You are not going to regret one minute of overtime at work when the financial and career rewards start popping into your life. Venus, your ruling planet, enters the sign of Gemini and brings you that lucky break you have been waiting for. Librans will finally feel like all of your hard work is appreciated. Your reward? A bonus or promotion.

Even though Saturn is your cruel master all year long, Jupiter, the wealth planet brings you extra money every month the last half of the year. You will not have to work as hard just to appease creditors or take care of your family after that. In fact, the pressure to perform will be lifted completely off of you by October 5th, 2012. Saturn leaves your sign entirely along with most of your debt!

This time you have nobody but YOU to thank Libra!

HELLO SCORPIO

OCTOBER 23—NOVEMBER 21

HELLO SCORPIO. GET READY TO SHED YOUR SKIN!

The first three months of 2012 are time to beautify your surroundings. Thanks to Jupiter in Taurus you get wads of money to renovate or buy a home. Be a generous host and show off your entertaining skills while Jupiter makes you the best cook and lover in the Zodiac.

Even though things seem great on the outside, you might already be noticing some subtle, yet powerful changes afoot in your life. On February 4th your ruling planet Neptune is going to shake you up. Neptune in picky and dramatic Pisces makes you restless, irritable and a bit ungrateful. You may feel agitated but remember how oysters produce pearls? Scorpios are about to meet that one grain of sand that forces you to change somehow spiritually for the better.

Despite your great success you feel like money isn't everything and decide to pursue something more passionate. Scorpio, this could be a love affair or simply a hobby you've always wanted to change into a career. Whatever it is don't be afraid to follow your heart's desire. Commit to following your dream. Jupiter in Gemini favors making impulsive moves in life.

Make as many changes as you can to your circumstances by October 5, 2012. Saturn, planet of limitations, moves into your sign and curbs your ability to be a mover and a shaker. After that you might find yourself locked into a bit of a routine that is difficult to change. Very practical burdens such as looking after an extra heavy work load or legal matter could chain you down.

Get ready for a life change Scorpio, it's your year for it!

HELLO SAGITTARIUS

NOVEMBER 22–DECEMBER 21

GET READY TO LIVE LIFE TO THE HILT!

Uranus, the planet of inspiration and evolution is going to continue to propel your career forward and upwards in 2012. Everywhere you go you and your projects will be met with popularity and success. It will feel like you can do no wrong. This is a lucky influence that is going to bring you wealth and fame for the next fourteen years!

Even though the pressure is on – you are sure to create diamonds out of the hardest of situation. Sag, you are the boundless optimist and natural born leader of the Zodiac this year. Bonuses and cash windfalls are headed your way too! If you are in business be sure to give back to the community.

Even though you are quite successful now, you can double your chances for riches and acclaim on March 11th. You have a once in a life-time chance to push a special project or idea forward.

On June 6th, Venus is likely to bring powerful woman into your life. She will act as a powerful mentor or director of your career. This charming, younger woman is likely to play a large part in how successful you can be until June 2013.

Life finally settles down by October 15th when Jupiter in Scorpio gives you a bit of a break. Archers, take time out to smell the roses and spend time with BFF's and family.

Take advantage of the lull that Jupiter in Scorpio offers your sign. Go on a diet or meet your fitness goals. Be careful Sag! One of the side-effects of all this boundless success that your sign enjoys this year is weight gain.

Sag, you are a force to be dealt with! Make the most of 2012!

HELLO CAPRICORN

DECEMBER 22—JANUARY 19

GREETINGS CAPRICORN! TIME FOR A SOFT LANDING!

Goats are on a spiritual learning curve that is teaching them the difference between attachment and loving detachment. This is thanks to Pluto being in Capricorn since 2008. If family and friends are getting on your nerves, you can blame it on Pluto. Pluto is a very slow moving planet and the lines that you have drawn in the sand will probably hold fast for a number of years.

Your Goat-y irritability with those who won't listen to you is lessened by some happier cosmic vibes this year. On February 8th, healer planet Chiron moves into the gentle sign of Pisces. This easy-going influence makes it easier for you to be more philosophical and stop dwelling on the past.

For the first four months of the year money planet Jupiter is in your fellow earth sign of Taurus. Cappy, this brings you the wads of cash you have been wishing for to renovate a property. However, when this same planet moves into the reckless sign of Gemini on June 11th watch out! Avoid a tendency to overspend. You have a weakness for buying flashy new technology. It may be more trouble to learn than it is worth!

After October 5th Saturn moves out of the diplomatic sign of Libra and into the less forgiving sign of Scorpio. If you want to forgive a family or BFF or end a feud do it before that date! Or you could make an enemy forever.

Capricorns deal with banks and government in the last two months of the year. But all of this will be worth it when the paperwork results in a nice cash payoff in 2013.

HELLO AQUARIUS

JANUARY 20—FEBRUARY 18

HELLO AQUARIUS! STEP INTO YOUR BRAVE NEW WORLD!

The big news is trouble-maker planet Neptune moves out of your sign and into Pisces where it is better suited to cause happiness and prosperity for all!

Neptune has been in your sign since 1998. It has been creating all kinds of needless dramas and interactions with addicted and unstable people. As this emotional planet finally leaves your sign alone, so will a lot of toxic waste. You will finally drop the Aquarian need to help others and start helping yourself in a big way.

Aquarius, the first two months of the year are best spent searching your soul to come up with answers as to what really matters in YOUR life. Chiron in your sign indicates that it is time to “heal the child within.” You will feel lighter and easier as the year moves on...

When money planet Jupiter enters your fellow air sign of Gemini on June 11th you will be walking on sunshine. This energy promises to bring you an exciting learning curve. That means travel, a new job and money to pursue your real passions and interest. This lucky streak makes others more receptive to your opinions and ideas AND keeps blessing you with pay-off after pay-off until June 2013.

Good news? Most of your money worries will be a thing of the past by the end of the year. Bad news? You could still be required to tie up lots of loose ends legally or tax-wise when Saturn enters Scorpio on October 5th, 2012. There is an upside though. This forces you to budget so you do not spend too much of your new wealth on frivolous things.

All in all, 2012 is a BRIGHT year ahead for you Aquarius.

HELLO PISCES

FEBRUARY 19—MARCH 20

HELLO PISCES! TIME TO MANIFEST A HIDDEN VISION!

Big news for your sign this year! Neptune moves into Pisces on February 3rd. Neptune is your ruling planet. Because of this lucky placement all Fishes will enjoy supreme success at whatever they do for the next fourteen years!

The biggest effect of Neptune in Pisces will be the fine-tuning of your intuition. Your hunches will be more “right on” than ever, especially when it comes to assessing who might be potential trouble in life. Pay attention to your dreams! They hold important messages for you. Especially when it comes to showing you how to make money doing something you love in life.

Fishes for the first six months of the year Jupiter in Taurus is going to help you shop until you drop! Money will be more plentiful. It will be nice to finally buy the things you need for yourself and your home.

2012 will be a year that Pisces can do no wrong unless you dwell on the bad things in the past! You have a danger period where bitterness could ruin success. Chiron enters your sign from February 8th to April 17th. Be sure to sleep on it before you make any big decisions.

Those eight weeks in the spring are a time when you decide to drop people you have out-grown. You will also be less inclined to rescue others and instead spend more time taking care of yourself. From June 11th onwards Jupiter is in Gemini. Lucky Fishes get new technology that really helps them put a project on the fast track to success!

Pisces, it's time to find the real you!
